**About Latino Economic Development Center**

LEDC aims to transform our community by creating economic opportunities for Latinos. We envision a region and state with a thriving multicultural community enriched with Latino leadership, culture, and economic influence. Our overarching goal is to help Latinos achieve economic prosperity through entrepreneurship and small business development.

Since its inception in 2003, LEDC has earned its place as a trusted partner for Minnesota’s Latino and immigrant communities, providing education, lending, and technical assistance to small businesses in the Twin Cities and Greater Minnesota. We are a Latino-led, fully bilingual organization, rich in lived experience and nuanced understanding of our clients, their cultural backgrounds, and their specific economic and business needs. As the only Latino-focused CDFI in the upper Midwest, we work to bridge the region’s enormous gap in culturally and linguistically appropriate business development services.
At LEDC, we have long recognized that the impact of our work goes far beyond the individual small businesses we support. These businesses are woven into the very fabric of Minnesota’s rich and diverse Latino community, providing employment opportunities for immigrants and meeting essential social and cultural needs in our community. All our efforts are focused on maintaining the integrity of this fabric and working to strengthen it so that our culture itself can continue to thrive.
